

Welcome!

Welcome to Caledonia High School and the CHS Players' production of Henry V by William Shakespeare! In the time of COVID-19 we would like to thank the community for the outpour of support we have seen for the arts. The students in the CHS Players have worked very hard this season to produce the show as safely as possible. This has meant making several changes to our normal operations. For instance, all actors and crew are maintaining social distancing by staying six feet apart at all times both on stage and off. All health guidelines in place during the school day were also in effect during rehearsals including mask wearing. While these changes have been hard to navigate at times, they have also fostered creative thinking in our students! For example, there are several places in the show in which two identical props are used to make it appear as if there is one prop. Furthermore, rules regarding students only being able to touch their own costumes also mean that all the costumes you see were designed by the students wearing them! The set was also completely constructed by a handful of students. Overall, the fall play this year is different, but we would like to take this moment to celebrate the hard work and clever thinking that went into making it happen. Thank you for all the support you as a community have given to these students in that journey.

Henry V by William Shakespeare is in the public domain. The abridged version of the script used today was edited by Kate Lane, Director of the production, for the CHS Players.

About the Play

Henry V is a historical drama set in the Hundred Years War between England and France. It is 1415 and a law has been proposed in England that would take huge amounts of funding away from the church. To distract from this legal battle, the Archbishop of Canterbury convinces the young King Henry to go to war with France. The argument is that if France had rightfully observed laws about female inheritance, Henry's great-grandmother would have become queen of France. As her only surviving heir, it is Henry's duty to claim the throne of France in her name, thus making himself King of both England and France.

With this flimsy logic behind the war we begin to follow everyone involved in the conflict as the campaign goes on. Henry and his officers must inspire the troops and keep the army intact. The French King must mount a defense and Princess Katherine must sit and wait knowing that if Henry wins the war, both she and France will be the prize. We also meet a band of common soldiers who were good friends with Henry when he was prince and others still who make Henry begin to question the legitimacy of his quest.

Henry V explores themes of friendship, betrayal, loyalty, leadership, and justice. In this play, we are taken on a dramatic journey for victory... and asked if it was all really worth it.
